

ONLINE DATABASE TRAINING 2009

SITI HASMAH DIGITAL LIBRARY

“Connecting People with Knowledge Proactively”

INTRODUCTION

Siti Hasmah Digital Library is committed in delivering database training to interested parties: academicians, researchers as well as Postgraduate Students of Multimedia University (MMU). This monthly basis program is meant to create a high level of awareness on online databases subscribed by the library. Trainings will be given by a representative from the respective publisher. The content of training may include:

- ✓ Updates on new features or interface of the particular database
- ✓ Tricks and ways to find a specific information in the online database
- ✓ Medium to solve any problems in accessing the database as trainers are all experts in the offering online databases
- ✓ Key or added features that useable but left unseen such as “key alert system”

Do join us as the training is far more promising in doing your assignments, research writings, thesis as well as Final Year Projects (FYP). Finding information is never this easy! Kindly contact your librarian for further information. The following pages is the list of all online database trainings in 2009 including the suggested dates. Kindly contact your librarian for more information!
