EndNote to Mendeley Migration

INTRODUCTION

Library has discontinued the EndNote subscription starting 2013 and for existing EndNote users, you're encouraged to use the Mendeley software as reference manager tool from now on. The software can be downloaded at: http://www.mendeley.com/.

For EndNote users, exporting the existing reference into .xml file is needed as a part of reference migration. Users needs to follow the following steps:

1. Open the EndNote software
