FROM THE
CHIEF LIBRARIAN

“The value of Academic Libraries”

The library is not just a repository, or a service like any other, or a place for study: it is all these things. It can also be a partner in research and in teaching, and institutions which fail to

capitalize fully on this asset will find it harder to compete in the future.

The library continues to fulfill its role as the heart of the university, despite the move away from print and towards electronic resources. The work the library undertakes contributes directly to the institution’s academic mission and to equipping students with the skills and knowledge they need to achieve academically and to maximize their employability.

Investment in e-resources has a direct impact on the productivity of an institution. Where academics and students have good access to e-

content, effectively the library is now open 24 hours irrespective of building opening hours, and finding books and journals has become fast and immediate, freeing time up for the research and for teaching.

For an individual university, good quality library resources can help attract and retain academic high flyers and contribute to the prestige of an institution. These resources can also help universities attract and retain graduate students.

The quality and depth of those resources are also a determinant of the quality of research a university’s academics can produce. Per capita expenditure and use of e-journals is strongly and positively correlated with papers published, numbers of PhD awards, and research grants and contracts income.

SITI HASMAH DIGITAL LIBRARY NEW BRANCH AT MMU EDUCITY NUSAJAYA, JOHOR

Siti Hasmah Digital Library is proud to announce that we have opened our new branch located at MMU Educity Nusajaya, Johor. As a part of the National Transformation Programme initiative led by our Prime Minister, YAB Dato' Seri Mohd Najib Tun Razak, an Educational hub is established in Nusajaya, Johor, and is aptly named EduCity.

MMU has been given the opportunity to establish its third campus in the new educational hub, and Siti Hasmah Digital Library's new branch is opened to serve the MMU community in Educity. This new library is the fifth branch of Siti Hasmah Digital Library. The Library offers various library collections such as books, audio visuals, online journals and online databases that focus on cinematic arts subjects.

It is our pleasure to serve you at our new location with the same quality and service you have come to expect of us. We do hope with the opening of this new library's branch will help MMU students and academicians especially of the Cinematic Arts programme to access information and retrieve resources for teaching and learning purposes in line with the MMU objective to ensure the students of the programme would be a talent feeder into the nation workforce for the film and creative industry.

Review:

The first integrated program designed specifically for the critical thinking course, Moore & Parker's Critical Thinking teaches students the skills they need in order to think for themselves - skills they will call upon in this course, in other college courses, and in the world that awaits. The authors' practical and accessible approach illustrates core concepts with concrete real-world examples, extensive practice exercises, and a thoughtful set of pedagogical features.

Review:

Studying Literature in English provides the ideal point of entry for students of English Literature. This book provides:

- Grounds literature and the study of literature throughout by referencing a selection of well-known novels, plays and poems.
- Examines the central questions that readers ask when confronting literary texts, and shows how these make literary theory meaningful and necessary.
- Links British, American and postcolonial literature into a coherent whole.
- Discusses film as literature and provides the basic conceptual tools in order to study film within a literature-course framework.
- Places particular emphasis on interdisciplinarity by examining the connections between the study of literature and other disciplines.
- Provides an annotated list of further reading.

Review:

In this Shelly Cashman Series "Web Design: Introductory, 5th ed." book, readers will find an educationally sound and easy-to-follow pedagogy that artfully combines screen shots, marginal elements, and text with full color to produce a visually appealing and easy-to-understand presentation of web design. This textbook conveys useful design concepts and techniques typically not addressed in web authoring textbooks. It explains the connections between a detailed design plan that considers audience needs, web site design and various technical issues. Students learn how to balance these elements to create a successful, responsive web site.

The new edition of the best-selling six-level Reading Explorer series will bring the world to the classroom like never before through new and updated topics, video, and visuals from National Geographic. Reading Explorer teaches learners to think and read critically to encourage a generation of informed global citizens.

- NEW Reading Skill sections explicitly teach and practice one academic skill or strategy to enhance learners' reading comprehension.
- EXPANDED video sections featuring National Geographic video provide engaging opportunities for learners to synthesize information from multiple sources.
- The UPDATED design blends text, charts, graphs and images, encouraging learners to develop visual literacy skills to improve comprehension.
- NEW eBooks and online workbooks with National Geographic video and activities allow learners greater flexibility for independent practice.

CUSTOMER SATISFACTION SURVEY/INDEX 2015

INTRODUCTION

The Multimedia University Library is committed to 'continuous improvement' and to be recognized as an organization consistently exhibiting best practice and values. Consistent with these values, MMU Library has conducted a survey so that customers' views, ideas, and suggestions can be fully considered as an integral part of its commitments for improvement.

OBJECTIVES

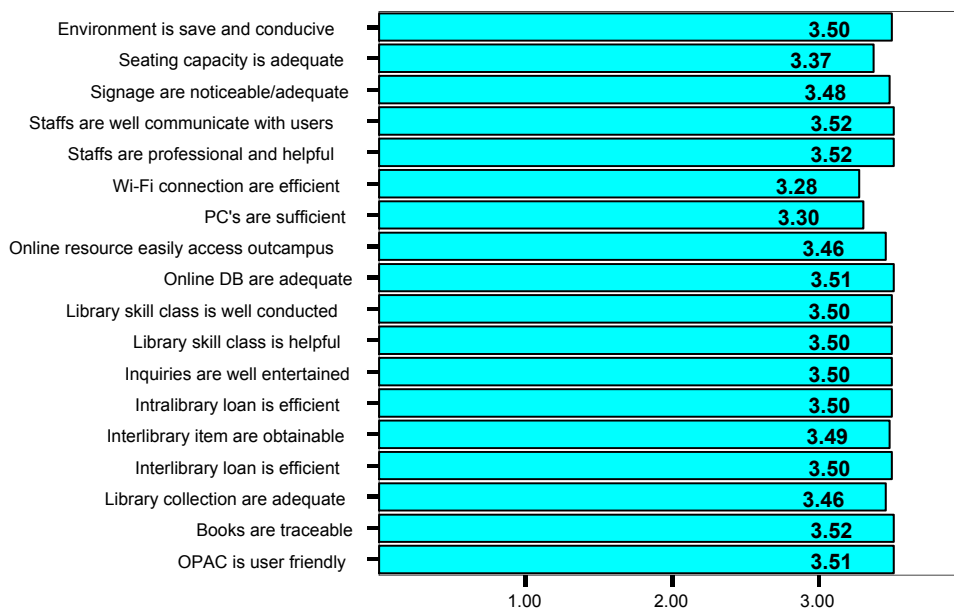

The primary objective of the customer survey is to provide the MMU Library with a means to identify key customer concerns that may presently exist. More specifically, the objectives of the survey are likely to include:

- ⇒ To identify and manage the key prioritized issues affecting customers;
- ⇒ To provide the ability to measure and monitor the performance of the MMU Library;
- ⇒ To allow customers the opportunity to communicate openly and honestly with the management team of the Library;
- ⇒ To improve library services and facilities.

The gap grid analysis

Analysis of the gap scores enables the library to prioritize strategies for improvement in terms of those factors considered most pressing by clients. This information is reported in the gap grid. The gap grid is a two dimensional visual tool that allows you to see the position of each factor in relation to both its importance and its performance.

For each survey variable it shows the weighted performance score (horizontal axis), the weighted importance score (vertical axis) and the gap score. In addition, the median of overall performance and overall importance is highlighted on each of the axis. The two medians can be used to divide the gap grid into four quadrants, as displayed in the figure below.

**Overall Important Median for SHDL is 3.78*

**Overall Performance Median for SHDL is 3.17*

**X = Scores for SHDL in 2014*

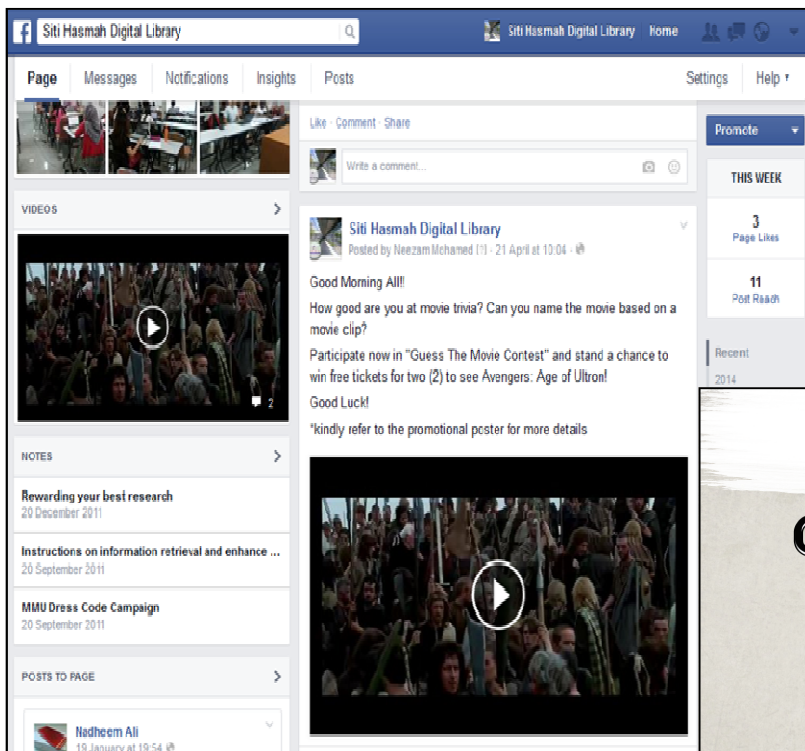

From the gap grid analysis, Siti Hasmah Digital Library seems to be on the right track as the score for 2014 is found to be in the "Expectation Met" quadrants. In overall, the performance is acceptable but the library needs to be aware of the possibility in future the scores might be drop as the performance median recorded is just above 3. Further enhancement or review needs to be done to accomplish the required result.

The MMU Library was established in 1996 when Universiti Telekom opened its first campus in Bukit Beruang Ayer Keroh, Melaka, Malaysia. The library which is situated at the Melaka campus was named University Telekom Library (UNITELE Library) and could only accommodate about 600 students during that time. The Multimedia University (MMU) Library was then moved to a new building in May 2000. In 1999, another MMU library was set up in Cyberjaya, Selangor, Malaysia and was given the name Siti Hasmah Digital Library. This library was launched on 24th July 2000 with the intention of it being first Academic University Digital Library for the nation.
